

MPI 3.1 is done – What's Next?

Technical, Logistics and Strategic Discussion

June 2015

(with updates based on discussions at the meeting)

Topics

- ▶ **MPI Chair**
 - ▶ Continue activities towards MPI 4.0?
 - ▶ Coordinate new activities for MPI 4+X? Too early?
 - ▶ Think about the addition (and role) of a Vice Chair
 - ▶ **Meeting Locations and Logistics**
 - ▶ **Document/Repository Management**
 - ▶ **MPI related events**
 - ▶ **MPI 4.0**
 - ▶ Topics / Gating Topics?
 - ▶ Timeline?
 - ▶ **Beyond MPI 4.0**
 - ▶ Major topics that we can see now?
 - ▶ How to start the discussion?
-

Meeting Logistics CY 2016

- ▶ **Frequency / Locations**
 - ▶ Keep at 4x per year?
 - ▶ Keep at 3x US plus 1x EuroMPI?
 - ▶ **Next meetings**
 - ▶ September: Bordeaux
 - ▶ NEW DATES: Thu/Fri 9/24-9/25
 - ▶ December: San Jose (Cisco) 12/7-12/10
 - ▶ **Dates and Locations discussed at the forum**
 - ▶ Chicago: 2/29-3/3 –OR– 3/7-3/10
 - ▶ Seattle: 6/6-6/9
 - ▶ At EuroMPI – Edinburgh: Forum dates 9/21 (Wed) – 9/23 (Fri) (dates fixed)
 - ▶ Dallas: 12/5-12/8
 - ▶ **Please check conflicts!**
-

Locations Discussed during Meetig

- ▶ **The traditional locations**
 - ▶ Chicago (Microsoft) – let's avoid June (or carefully pick the week)
 - ▶ Thanks, Anh!
 - ▶ San Jose (Cisco)
 - ▶ Thanks, Jeff!
 - ▶ **Other offers**
 - ▶ Seattle downtown, Portland, Bellevue (Microsoft)
 - ▶ Thanks, Anh!
 - ▶ Raleigh (Lenovo)
 - ▶ Thanks, Chulho!
 - ▶ Austin (IBM)
 - ▶ Thanks, Sameh!
 - ▶ **Other suggestions**
 - ▶ Dallas (March)
 - ▶ Free space, close to major airports, good weather, ...
-

MPI Related Events

- ▶ MPI BoF at ISC

- ▶ Accepted BoF at ISC in Frankfurt

- ▶ Advertise MPI 3.1 and its changes
 - ▶ Update on WG (will ask WG chairs) and major topics
 - ▶ Encourage forum participation
 - ▶ Other suggestions

- ▶ Volunteers to participate

- ▶ MPI BoF at SC

- ▶ Plan to submit BoF

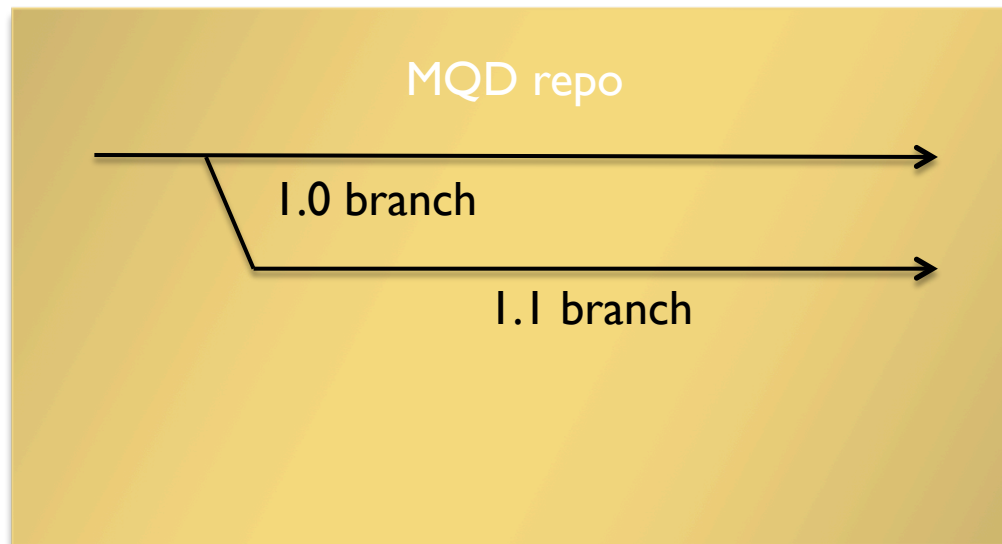

- ▶ Similar agenda

- ▶ Please let me know if you are interested in participating

- ▶ Should we target other events?

Document Management System

- ▶ Current system (SVN) is a bit outdated
 - ▶ Hard for WGs to fork / work in parallel
 - ▶ SVN merges are... tricky and slow
 - ▶ Proposal: switch to git
 - ▶ Each document (MPI, MPIR, mpqd, ...) has its own git repository
 - ▶ Editor (or designee) manages any master repository
 - ▶ Each version is on its own branch (as we work)
 - ▶ Ratified versions get tagged
 - ▶ Integration after successful votes through pull requests
 - ▶ Either by chapter author or signed-off by chapter authors
 - ▶ Can/Should be done after tickets/changes are accepted
 - ▶ Ticket system would have to be moved to a pull request system
 - ▶ How to make/keep this visible for everyone?
 - ▶ (Good) consequence: every ticket will have text
 - ▶ Strawvote: Git 22, SVN 0, abstain 3
 - ▶ Hosting options: github, bitbucket, gitlab
 - ▶ Public vs. private
 - ▶ Chapter committees and working groups maintain forks/clones
-
- ▶ Strawvote: make public 9, keep private 11, abstain 5

Topics for MPI 4.0

- ▶ **Topics with active tickets**
 - ▶ Persistent Collectives
 - ▶ Assertions/Hints
 - ▶ ULFM
 - ▶ Endpoints
 - ▶ RMA (incl. big ones – shared memory)
 - ▶ **Other open topics**
 - ▶ Additional FT abstractions
 - ▶ Streaming messaging
 - ▶ Rework of the MPI profiling interface
 - ▶ Extensions to MPI_T
 - ▶ Generalized requests
 - ▶ Active messages
 - ▶ Hybrid MPI+X (esp. CAF)
 - ▶ Send cancelation
 - ▶ Attribute callback (volunteer wanted)
 - ▶ Large count
 - ▶ **New tool side documents (handles, DLL)**
 - ▶ **We should define goals listed (now, at some point, ...)?**
 - ▶ Define later on criticality (perhaps with a vote?)
 - ▶ Having a story on FT
-
- ▶ **Should we decide/fix an estimated timeline now?**
 - ▶ Suggestion (based on history and useful intervals): 2018

Beyond MPI 4 – Towards MPI 4+X

- ▶ **Scope of MPI 4.0**
 - ▶ Pretty much well defined topics/extensions
 - ▶ Fit well into the overall concepts
 - ▶ **Where do we want to go beyond that?**
 - ▶ And How?
-
