

MPI Forum 2023/09/13-14-15

Groups, Contexts, Communicators and Caching

Chapter Diff

**Committee: Pavan Balaji, Bill Gropp, Guillaume Mercier,
Tony Skjellum**

Formal changes

- processes → MPI processes
- Removed whitespaces
- Indexing of “pending communication(s)”
- \texttt → \code (in some places)
- Font changes for function arguments in text description (e.g. line 1247)

Formal/Editor changes

- `\paragraph` → `\paraheading`
- `\paragraph{}` → `\paragraph*{}`
- `\constmain` → `\mpiconstmain`
- `\const` → `\mpiconst`
- No hyphen version for some words (e.g. nonoverlapping)
- Don't → do not
- Added “.” for some descriptions
- Listing mode instead of verbatim mode for code examples
- `\exindex` → `\Exindex` (indexing modified for code examples)
- Some which hunting throughout (which → that)
- `\ftype` → `\code`
- `\const` → `\error` (for `MPI_SUCCESS`)
- `\mpifunc` → `\mpiconstfunc`
- `\mpifuncmainindex` → `\mpiconstfuncmain`
- `\mpiskipfunc` → `\mpiconstfuncskip`

Contents of MPI 4.1 list

- According to the list “contents of MPI-4.1” on Github (with “chap-contexts” label):
 - Memory allocation kind info (#580/PR#714) → OK
 - “Pending operation” in MPI_Comm_free not defined (#543/PR#791) → OK
 - MPI_Comm_create_from_group and friends need clarification of errhandler argument (#511/PR#629) → OK
 - Allow MPI_*_GET_NAME functions to accept MPI_*_NULL handles (#544/PR#652) → OK
 - Clarify/fix description and usage of MPI_GROUP_NULL (#534/PR#651) → OK
 - Info key(s) for Start Ordering Persistent Collective Communication (#83/PR#666) → OK
 - Allow pset names to guide splitting in MPI_Comm_split_type (#538/PR#761) → OK
 - Remove/modify text in Section 7.7.1 (Functionality) (#496/PR#634) → OK
 - Fix Incorrect Usage of Rank/Task/etc. in Contexts Chapter (#474/PR#710) → OK
 - Erratum/Ticket 0 change in chapter 7 (MPI_COMM_CREATE): wrong font fix (#550/PR#660) → OK
 - Update verbatim examples to example environment for context chapter (#557/PR#676) → OK
 - MPI_Comm_disconnect is not stated to delete attributes (#687/PR#827) → OK
 - clarify what is (and is not) duplicated by MPI_COMM_DUP (#690/PR#830) → OK
 - 'Pending communication' not defined in definition of MPI_Comm_disconnect (#710/PR#823) → NOT OK, but the context.tex file is not modified by PR#823
 - 'Pending operation' not defined, pending proper definition (#676/PR#825) → OK

Contents of MPI 4.1 list

- According to the list “contents of MPI-4.1” on Github (without any “chap-*” label):
 - Enhancing MPI Examples indexing (#525) → OK
 - Consistent use: Throughout - Table Formattings (#162) → OK
 - Consistent use: Throughout - Replace \const with More Specific Macros (#165) → OK
 - Update: Multiple occurrences – Which/That – Whichhunt (#232) → OK
 - Update: Throughout - Clarify LaTeX Paragraph (#241) → OK
 - Update: Throughout - Use LaTeX Lists (#242) → OK
 - Make the examples index better (#287) → OK
 - Consistency: use of non vs non- (#316) → OK
 - Examples are incorrectly indexed (#340) → OK
